

Cardiff student housing rent report

Overview

This report provides an overview of student housing rental trends, based on live listings on Accommodation for Students (AFS). It compares private student housing with purpose built student accommodation (PBSA) to help landlords and letting agents benchmark their properties. This July 2026 edition includes:

- **Average room rents** (monthly and yearly change, by segment)
- **Rent trend** (13 months of average advertised rents)
- **Year-to-date comparison** (2026 vs 2025)
- **City comparison** (how the city sits against the UK market)

Throughout, student housing means the widest range of privately rented student accommodation, including shared houses and flats marketed to students, rather than solely the legal definition of a house in multiple occupation (HMO).

Bills and the advertised rent

Bills-included rooms in Cardiff list at an average **£119** a week against **£122** bills-excluded, a headline gap of £3 (-3%). The gap is a market price difference, not a guaranteed uplift; bills-inclusive properties differ in other ways too.

Methodology

- **Where the data comes from.** Live listings on AFS, captured in a daily snapshot. This edition uses 31 July 2026, compared with 30 June 2026 and 31 July 2025.
- **What we measure.** The average advertised weekly room rent. Obvious pricing errors (below £30 or above £1,000 a week) and purpose built student rooms cross-listed as shared housing are removed first, so the figures reflect genuine student houses and flats.
- **Small numbers.** Any figure based on fewer than 30 advertised rooms is shown as a dash. The city chart covers cities with at least 100 advertised rooms.
- **Bills and bedrooms.** Bills included means all bills are included; bills excluded means none are; listings with partial or optional bills packages (12 rooms this month) sit in neither segment. Bedroom bands use the advertised bedroom count.
- **Prices or mix?** Monthly and yearly changes are checked against properties advertised in both periods. When a change mostly reflects a different mix of advertised properties rather than price changes, the commentary says so.
- **PBSA benchmark.** The average weekly rate for full-year (40+ week) PBSA rooms advertised during the month. The level and its changes are calculated with the same method as the monthly PBSA pricing report, so the two reports agree.
- **Year to date.** The average of the monthly figures, using months with enough data in both years.
