

Loughborough student housing rent report

Overview

This report provides an overview of student housing rental trends, based on live listings on Accommodation for Students (AFS). It compares private student housing with purpose built student accommodation (PBSA) to help landlords and letting agents benchmark their properties. This August 2026 edition includes:

- **Average room rents** (monthly and yearly change, by segment)
- **Year-to-date comparison** (2026 vs 2025)
- **City comparison** (how the city sits against the UK market)

Throughout, student housing means the widest range of privately rented student accommodation, including shared houses and flats marketed to students, rather than solely the legal definition of a house in multiple occupation (HMO).

Market insight

Month on month the average advertised room rent was 2% lower, although like-for-like rents on properties advertised in both periods were flat, so the move reflects a change in the advertised mix rather than price changes.

Methodology

- **Where the data comes from.** Live listings on AFS, captured in a daily snapshot. This edition uses 31 August 2026, compared with 31 July 2026 and 31 August 2025.
- **What we measure.** The average advertised weekly room rent. Obvious pricing errors (below £30 or above £1,000 a week) and purpose built student rooms cross-listed as shared housing are removed first, so the figures reflect genuine student houses and flats.
- **Small numbers.** Any figure based on fewer than 30 advertised rooms is shown as a dash. The city chart covers cities with at least 100 advertised rooms.
- **Bills and bedrooms.** Bills included means all bills are included; bills excluded means none are; listings with partial or optional bills packages (0 rooms this month) sit in neither segment. Bedroom bands use the advertised bedroom count.
- **Prices or mix?** Monthly and yearly changes are checked against properties advertised in both periods wherever enough of them overlap. The commentary says so when a change mostly reflects a different mix of advertised properties rather than price changes, and says so too when too few properties overlap for that check to be made.
- **Year to date.** The average of the monthly figures, using months with enough data in both years.
