September 2026 Edition

Wolverhampton student housing rent report

Overview

This report provides an overview of student housing rental trends, based on live listings on Accommodation for Students (AFS). It compares private student housing with purpose built student accommodation (PBSA) to help landlords and letting agents benchmark their properties. This September 2026 edition includes:

- **Average room rents** (monthly and yearly change, by segment)
- **Year-to-date comparison** (2026 vs 2025)
- **City comparison** (how the city sits against the UK market)

Throughout, student housing means the widest range of privately rented student accommodation, including shared houses and flats marketed to students, rather than solely the legal definition of a house in multiple occupation (HMO).

Market insight

Wolverhampton had 3 advertised properties with 3 priced rooms at the end of September 2026, which is too few for reliable averages. The chart below shows how the UK's largest student markets priced, for context.

How Wolverhampton compares

Methodology

- **Where the data comes from.** Live listings on AFS, captured in a daily snapshot. This edition uses 30 September 2026.
- **What we measure.** The average advertised weekly room rent. Obvious pricing errors (below £30 or above £1,000 a week) and purpose built student rooms cross-listed as shared housing are removed first, so the figures reflect genuine student houses and flats. Wolverhampton had too few advertised rooms this month for a reliable figure.
- **Small numbers.** Any figure based on fewer than 30 advertised rooms is shown as a dash. The city chart covers cities with at least 100 advertised rooms.
- **Small market.** Wolverhampton had 3 advertised rooms this month, below the 30-room threshold for movements and segment breakdowns, so this edition reports levels and market context only.
